Jadavpur University

08/2019 - Present

CGPA - 8.3

Indian School Certificate (ISC)

St. Augustine's School, Kalimpong

06/2016 - 06/2018

Percentage - 73.5%

Indian Certificate of Secondary Education (ICSE)

St. Augustine's School, Kalimpong

06/2014 - 05/2016

Percentage - 86.16%

PERSONAL PROJECTS

WEATHER APP

This app features APIs like weather-stack and position-stack to tell a user the weather details of the location he/she inputs to a form. I have used features like geolocation to convert the location to its cords and feed it to another API to display precise results. It uses express.js framework to build the web server of the app.

TASK APP

The main purpose of this app is to let a user put up any task and setup a user profile. I have used basic REST API to interact with web-server. I have also used npm modules like bcryptjs, jwt and jest. The users and their respective tasks are stored in a safe and secure database.

CHAT APP

This app features a basic chat app with fundamentals use of Socket.io. It uses npm modules like bad-words to prevent user in a lobby to use profane words. A user can join a specific room and text with the person he/she wishes to communicate with!

CERTIFICATES

<https://www.hackerrank.com/certificates/51be1db0f1ee>

▣ HackerRank Problem Solving(Basic) Certificate.
